

A different shade of elegance.

Total No Frost

Total No Frost is a function based on the circulation of cold air that reduces humidity and prevents the accumulation of frost on the food in the refrigerator and ice on the walls of the freezer compartment.

The refrigerator and freezer compartments have separate airflow so that odors cannot mix between the compartments. Unlike conventional systems, Total No Frost cools both separate units faster.

Super Cooling

Want those drinks you've just put in the fridge to be very cold, very fast? No worries – our useful super cooling feature is here to the rescue, just in time for an important game or a favorite movie.

Door alarm

A beeping signal will sound if you leave the refrigerator door open for longer than is recommended, reminding you to close it and stop the warm air from raising the inside temperature.

F energetic class

According to the new energy classification, this refrigerator belongs to class F. Compared to other appliances, this refrigerator consumes less electricity, so it protects the environment and saves money through lower electricity costs. Our appliances are equipped with excellent thermal insulation, improved door protection, first-class cooling system components, and electronic controls that reduce energy consumption to a minimum.

Super freezing

Use the super-freezing feature when you're storing food in the freezer: this option makes different groceries freeze even faster, so all the necessary nutrients remain intact.

Water dispenser

An external water dispenser is a convenient addition to this model, allowing you easy access to cold water anytime. Forget about loads of bottled water in the fridge, and enjoy this simple alternative!

COOLING SYSTEM	
Refrigerant (R600a/R134a)	R600a (70g)
Inverter motor	No
Defrost system	Total NO Frost
Air flow system	NO
Foaming Agent	Cyclopentane
Energy Class	F
Energy Consumption (kWh/24h)	1.098kWh/24h
Energy Consumption (kWh/year)	401
Climate Class	SN / ST / N
Star Rating	4 star
Noise Level	41 dB
Power	240W
Voltage	220-240V~
Frequency	50Hz
Current	1.0A
Power cord length	1.8m
