TESLA

K939 LED TV 75K939SUS
POWERED BY webOS TV

Simplicity and balance

This TV's operating system is built to integrate the enjoyment of traditional live TV with contemporary, mainstream online content, providing an amazing balance between live broadcasts and on-demand programs. Using home dashboard, you can easily manage all inputs, settings and connected devices.

Introduction to webOS

webOS is an intelligent TV operating system, created to provide a great audio-visual experience while supporting TV broadcasting systems on the global market. It supports Dolby audio, HDR, HLG, as well as world's top content apps: Netflix, YouTube, Prime video, etc.

Let the music play

Our new Class-D audio amplifier and powerful BOX speakers will turn your living room into a proper dancefloor! This TV will wow you with the amazing sound, and the Music player app elevates the experience of listening to favorite melodies to a whole other level. It allows you to play music even when the TV screen is off.

Magic remote

Use the magic remote almost as a computer mouse: this is a universal device that will replace two or more remotes you have around, never knowing which one you should use. You can zoom in on important details, scroll or move around, use hot keys or quick access buttons - easily set to automatically open certain apps.

AI voice recognition system

The built-in ThinQ AI voice recognition system supports more than 13 different languages. From search options to menu functions, you can control the TV, look for any information, play music or browse through movies and TV shows just by speaking to the magic remote control!

Connectivity matters

Connect the TV with your computer or phone wirelessly (Miracast, DLNA) to browse through it on the big screen, as well as manage the device using the TV remote. There's an important game scheduled, but the kids are asleep? You have two options: use your Bluetooth headphones, or use ThinQ app to control the TV, transfer the sound to smartphone headphones and turn the volume up!

TESLA | K939 LED TV **75K939SUS**
POWERED BY webOS TV

GENERAL

Screen Size	75" (190cm)
