

Drum clean

This feature sterilizes the machine drum at the temperature of 90 degrees. For even better results, place an appropriate amount of chlorine-based product in the drum.

Extra rinse

With our Extra Rinse feature, you'll forget about detergent residue on your clothes. It ensures the best cleaning results by repeating the rinsing process – quite useful for children and people with sensitive skin.

Daily wash 15'

This shortened cycle is ideal for small quantities of slightly dirty clothes, saving you both time and money by washing and rinsing in only 15 minutes.

Spin speed

Our washers allow you to select the speed at which the drum spins during rinsing – simply choose the right one according to the type of material.

Child lock

Looking for a way to prevent children playing with the controls, or even unintentional use? The Child Lock function is a perfect solution.

Start delay

This option allows you to postpone washing for three, six or nine hours. Once the chosen time comes, the washer will automatically start the selected cycle.
