

Automatic temperature control

The cooking temperature stays at a preset level, allowing you to cook delicious meals at just the right heat. It's time to wow your friends and family with tasty grilled bites, made at the exact temperature you want!

Cool touch handle

Even if you're cooking food at a high temperature, the device handle will remain cool and safe to touch. This makes the grilling process easier, and protects your hands and fingers from getting burned while you're opening or closing the device.

Opens flat (to 180°)

This Tesla device can be opened into a flat position, which means you can use it for open grilling or griddling. When you open the grill to 180°, you get a double cooking surface, which allows you to have fun with various recipes.

Drip tray

The drip tray is used to collect and contain excess oil or grease from the grill. After you're done with cooking, simply clean the tray.

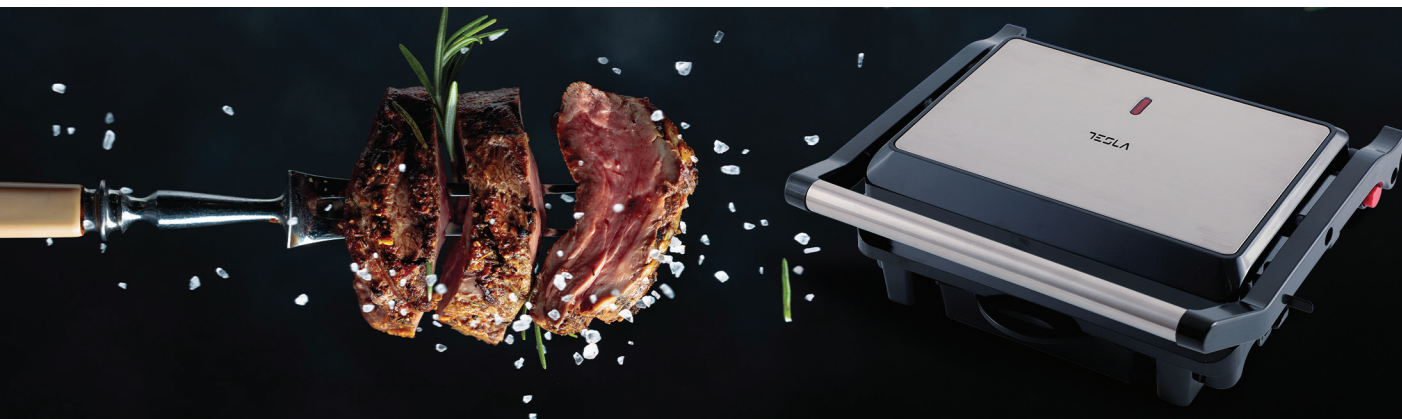

Vertical storage

The grill can be locked and stored vertically, so it takes up less space in your kitchen or on your countertop. It won't get in the way, yet it will be easy to access once you decide to use it again!

Floating hinge system

Want to grill a thick piece of food without crushing it? Floating hinges allow for even heating of both sides, adjusting to the thickness of food so it's evenly cooked – even when you're grilling chunkier pieces.

Model	GR200BX
Power	1000W
Color	Black- inox
Non-stick plate	Yes
Plate type	Grill
Plate dimension	254*178 mm
Detachable plates	No
Easy Cleaning	Yes
Overheating protection system	Yes
Control temperature knob	No
Control timer knob	No
Opens 180° with Red push button	Yes
Oil Drip Collector Tray	Yes
Easy Locking	Yes
Light indicator	Yes
Upright for storage	Yes
Cable length	80cm
Product height	30.5cm
Product width	26.8cm
Product depth	10.5cm
Gift box height	32.5cm
Gift box width	13.8cm
Gift box depth	30.3cm
Weight	1.85kgs
Gross weight	2.0kgs
Number of devices in CB	4
Carton Size (L x W x H) mm	57.2*33.5*31.8cm
Gross Weight CB	10.2kgs
EAN	8606031248415
